

A-sport

A-sport range is a brand new car transporter trailer that further develops the options in direct response to the challenges of creating transportation equipment to meet modern criteria. It is a reality that set to a background of high energy prices and environmental concerns the key to sustainable transportation in the future is determined by efficiency. A-Sport originates from a study focused on weight reduction, in which all design components have been re-evaluated. The result is a reduction in chassis weight of up to 20% over the lightest previously achieved. There are direct benefits in cost of ownership, environmental impact and operation ease as a result.

New construction principles have also enabled enhanced features to be incorporated without the traditional cost compromise.

Brian James Trailers are now in our 30th year of car trailer design and manufacturing. Experience gained over this time is both unique and unrivalled, enabling us to produce state of the art trailers that will serve our customers for many years. The bed rock principles of each and every BJT trailer are found within the new A-sport and provide our hallmark safe, stable well controlled towing experience combined with care and attention to providing a straight forward, easy and secure operation.

There is also every opportunity to customise the specification from a wide range of optional equipment, see below and page 15/16 for full details.

Overall trailer dimensions:

OVERALL LENGTH = Load bed length + 1.37m (4ft 6)

OVERALL WIDTH Load bed width 1.68m 2.11m (6ft 11)

OVERALL WIDTH Load bed width 1.90m 2.30m (7ft 6)

A-Sport STANDARD features

- Spare wheel / tyre fitted
- 'Safe Lock' ramps (1.9m) with hi-grip surface and full width adjustment
- 4 wheel auto reverse brakes
- Hi-grip deck, anti-slip wheel surface
- 50mm ball coupling

- HD jockey wheel on 4 wheel trailers
- One piece purpose made enclosed-mudguard
- Rear drop down support stands
- Lighting system to full EEC directives. Rear lamps fully protected. Reliable wiring loom system.

- Flexible mounted rear corner marker lamps
- Lightest in class with low bed and low centre of gravity
- Fully hot-dip galvanised steel chassis
- 5 YEAR chassis warranty

BRIAN JAMES TRAILERS

A-max

A-max is a focused, class leading trailer design centred on operational ease. The core features provide the easiest and safest ramp loading system yet devised, rendering a traditional hydraulic tilt-bed operation virtually superfluous to all but the most specific applications. Its light weight, low centre of gravity combination is safe and stable, providing the well controlled towing experience that many previous Brian James Trailers customers have come to rely on. To keep pace with the growth in size of many modern vehicles A-max trailers offer the choice of a superior wide bed of up to 1.96m (6ft 5). Anyone concerned with minimising the risk of vehicle damage during loading and unloading will find this particularly useful.

A high specification of standard equipment and a comprehensive options list ensures you can create an exact specification for your needs.

See overleaf on **page 9** for details of **options and accessories for A-max family trailers.**

BRIAN JAMES TRAILERS

Smart-max + Micro-max

Smart-max (AM-T-080) is the dedicated Smart car trailer, exactly the right size and layout to suit Smart cars. **Micro-max** is designed for compact saloon cars such as the Toyota IQ. All micro cars can be driven straight onto the trailer. As the chassis design is shared with the A-max, owners benefit from what is the easiest operation, safest ramp deployment system on the market, making these little trailers entirely suitable behind a motor home for those who require ease of use, safety and security.

OVERALL LENGTH 3.0	4.34m (14ft 3)			
OVERALL WIDTHS	2.05m (6ft 9)	2.13m (7ft)	1.96m (7ft 6)	

Smart & Micro-max STANDARD

- Spare wheel / tyre fitted (lockable)
- Easy slide action pull out ramps (1.6m) with Hi-grip surfaces
- Automatic reverse brake system.
- Hi-visibility lighting system front and rear
- Hi-grip deck, anti-slip wheel surface
- Rear kick down support stands
- Overall dimensions fit standard car garage
- Fully hot-dip galvanised steel chassis
- 5 YEAR chassis warranty

Minno-max

Minno-max suits compact and lightweight race or road cars. Overall dimensions of the Minno-max are based on the ability to enter an average car garage. Once inside, Minno-max can store your car onboard, safe and secure. Minno-max models are part of the A-max family of trailers, all of the detailed features of A-max are also found on Minno-max.

Minno-max Product code	Load bed length	Load bed width	Gross cap. Kg	Load cap. Kg	Price	Non-slip ramps 1.9m	Non-slip ramps 2.4m	Spare wheel	Head lock	Centre deck & store	Rear kick-stands	H.D. Jockey wheel	Winch 1 gear manual	Tie-down wheel straps	5 YEAR chassis warranty

All prices are subject to VAT and are ex-works.

A-max family - OPTIONS and ACCESSORIES

Choose from an extensive range of popular options to create the trailer to suit your own needs. Each represents the results of years of experience and feedback from our customers.

Centre deck and storage tray

Flush fitting commercial vehicle quality, anti-slip decking with a recessed storage tray and locking lid, ideal for keeping tie-down straps secure.

£ 199.00, fitted

Glide-out-ramps - hi grip surface

Standard equipment loading ramps are 1.9m in length for good loading angles. 2.4m ramp option for ultra-low loading.

2.4m loading ramps £ 59.00

Storage box (3 x 20ltr cans)

Ideal for transporting additional fuel supplies to and from race meetings. Conveniently sited to give good access and for safety.

£ 149.00, fitted

Wheel STOP chocks (pair)

Quick release stop chocks can be set to optimise the load balance. Secured with quick action cotter pins plus securing cable.

£ 49.00, pair

Heavy duty jockey wheel

Robust, high capacity jockey wheel features tough wide tyre, a serrated tube (anti-slide) and locking handle.

£ 54.00, upgrade, standard on 2.6t gross

Folding Tow Pole

Raise towpole into vertical position for reduced storage length requirement. For all A-max up to 2,000Kg gross.

£ 579.00

Manual winch

Manual winch with choice of gears dependent on capacity. Cable roller guides for best operation.

Tyre rack - high level

Tubular design full width tyre rack with strap securing and supplementary security cable with pad lock.

£ 265.00, fitted

A-max, FAST FACTS:

- Fast and efficient loading using A-max ramp system, faster and easier than a hydraulic tilt-bed.
- Widest bed in class at 1.96m (6ft 5) means greater flexibility.
- High specification includes spare wheel, HD jockey wheel plus hi-grip surface on ramps and deck as standard.
- Low centre of gravity, high stability.
- Light, high strength steel chassis delivers safe and reliable performance.

A-max is popular throughout Europe for its ease of use and safe towing. Here is Sir Stirling Moss and his wife Suzi with theirs.
