# Race Shuttle RS3

Unique and innovative design abounds in the Race Shuttle RS3. A full one-piece body lifts high to reveal a loading platform similar to that of an open trailer. This provides excellent access into the trailer for vehicle strapping, with the top then pulled and locked down to completely enclose the car within.

# Race Shuttle RS5

The impressive shape and style of the Race Shuttle RS5 is immediately obvious. There is of course real capability beneath the highly polished exterior. RS5 provides the easy operation of an open trailer, which moments later is made fully enclosed and secure. Twin gull-wing side doors, front access hatches and a full width drop tail / ramp are all standard features, as is an electric winch and power pack complimenting the unique nature of this highly refined product.
